ABOUT ME

I'm Gabriel (he/him) and I'm 23 years old. I'm someone who is extremely curious and eager to learn new topics to expand my knowledge. I am hardworking and I absolutely enjoy giving my all in what I'm invested in. I'm quite well versed in Linux (Debian-based), and I also have some experience with programming languages like C++ and Python. At the moment, I am learning about Unreal Engine 5 with Tom Looman's course, however I enjoy working on personal projects using the Godot engine.

SKILLS

- Excellent knowledge of PCs, phones and consoles.
- 2 years + of experience with Excel, Target Manager for PS4/PS5, Xbox Manager (GDK) and Nintendo Target Manager.
- Fast Learner.
- Basic Networking understanding
- AWS Gamelift
- Daily use of Python.
- Fluent in French and English, beginner level (A2) of German.
- Ability to adapt to a fast-paced work environment.
- Linux experience
- Some knowledge of Hugo/Blowfish

EXPERIENCE

[Build and Release support Tech] | [Behaviour Interactive (BHVR)]

[JUNE 2022] – [PRESENT DAY]

As a build and Release support Tech, I essentially manage the entire build and release pipeline for Dead by Daylight. Which includes all the automated process for the daily compilation of code and creation of builds as well as all the AWS Gamelift Servers for multiplayer. Another crucial aspect of my job is to work on the various python scripts that we have in place to automate this entire process and improve them.

[Mastering Technician (L1 IT Technician)] | [Pole to Win Canada, Inc. (PTW)]

[2020] – [JUNE 2022]

As a Mastering Tech, I have many responsibilities, I manage and keep track of the hardware. Provide Tier 1 IT support to our testers (PC, console & mobile/tablet troubleshooting). I also am

responsible for joining PCs to the domain. Create and disable user accounts. Finally, I'm also managing all the Linux based computers after implementing my own system.

[Packer/Cashier] | [IGA Marcher Tellier Inc.]

[2018] – [2020]

I used to be a packer and cashier at this grocery store. My main responsibilities were packing up orders for the clients or scanning their items at the register. I also occasionally stocked shelves.

[Will-Call] | [Tennis Canada]

[2017] – [2017]

My main responsibility was to sell tickets to people or print the tickets they had purchased online. I occasionally had to troubleshoot the software we used as it was old and that's when my interest in computers/tech piqued.

EDUCATION

[High school] | [Louis-Riel]

[2013] – [2018]

[High school] | [Eulalie Durocher]

[2018] – [2019]

[Languages department] | [Maisonneuve College]

[2019] – [2019]
